SUMMARY

Aspiring software engineer with strong foundations in programming, full-stack web development, and AI/ML. Skilled in Python, C++, JavaScript, and modern web frameworks. Experienced in leading and collaborating on projects, with proven achievements in hackathons, debates, and technical events.

EDUCATION

Oct 2022 – Ongoing	B.Tech in CSE, Vellore Institute of Technology	(CGPA: 8.32/10)
Aug 2021	Class XII, Kendriya Vidyalaya Nasirabad	(90.6%)
May 2019	Class X, Kendriya Vidyalaya Nasirabad	(92.4%)

PROJECTS

Gvni (Web Development Boilerplate)	July 2025
– Developed a TypeScript-based boilerplate providing a robust foundation for modern web apps. Configured Vite for fast builds and efficient workflows. Integrated Tailwind CSS for utility-first styling and rapid prototyping. Set up ESLint for code quality and best practices.	
Desktop Assistant (AI + NLP)	April 2024
– Built a Python-powered assistant capable of executing voice commands (web search, emails, apps). Developed responsive UI with HTML, CSS, and JavaScript. Integrated automation features (search, file management, emailing).	

COURSES

Python (Udemy)	C++ (Udemy)
Machine Learning (Udemy)	Web Development (Udemy)

EXTRA-CURRICULARS & ACHIEVEMENTS

- Core Member, Event Management Team – IoT Club VIT Bhopal.
- Finalist at Horiba Hack for Health Hackathon, IIIT Delhi.
- Second place in Cluster-level Debate Competition.
- Youth Parliament (Home Minister) – Second Position.

SKILLS

Programming	Python, C++, JavaScript
Web Development	Full Stack (React, Node.js, Tailwind, Vite)
